**McMaster University**

February 20, 2019  
 FREQUENCY REPORT  
 Number of Surveys (n) = 1087 Web Surveys

**A note about the use of sex and gender in this report:**

Survey responses are reported by sex based on the responses to questions 47a, 47b, and 47c. For the purpose of the ACHA-NCHA report documents, respondents are reported as male or female only when their responses to these three questions are consistent with one another. If students' gender identity is consistent with their sex at birth AND the student selects "no" for transgender, then respondents are designated as either *male* or *female*. If a respondent selects "yes" for transgender OR their sex at birth is not consistent with their gender identity, then they are designated as *non-binary*. A respondent that skips any of the three questions is designated as *unknown*. Only 3 of the 4 categories are displayed in this report. Students categorized as *non-binary* are included in the *Total* column, but are not presented in a separate column. When the *Total* of any given row is higher than the sum of the *male*, *female*, and *unknown* students, the difference can be attributed to *non-binary* students that selected the response option presented in that row.

**1. How would you describe your general health?**

	Male		Female		Unknown		Total		Pct.	
	Freq.	Pct.	Freq.	Pct.	Freq.	Pct.	Freq.	Pct.		
1 Excellent	51	19	58	8	0	0	109	10.2
